Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to a molding machine, classified in class 425, subclass 465.
- II. Claims 12-21, drawn to a method of molding, classified in class 264, subclass 167.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus can be used for a different process such as extruding dough rather than thermoplastic.

During a telephone conversation with Bruce Kramer on February 26, 2004 a provisional election was made with traverse to prosecute the invention of group I, claims 1-11. Claims 12-21 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Brett Sylvester on March 11, 2004.

#### In The Claims

Claim 1,

Line 10, "in" (second occurrence) has been deleted.

Claims 12-21 have been canceled.

#### In The Title

The title has been changed to --APPARATUS FOR PRODUCING CONTINUOUS EXTRUSION MOLDING--.

The following is an examiner's statement of reasons for allowance: Claims 1-11 define over the prior art since the prior art fails to disclose or suggest a molding machine having at least one shaping knife, rotatable around an axis non-parallel to a first extrusion axis and operable in a first and second operational position as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tim Heitbrink whose telephone number is 571-272-1132. The examiner can normally be reached on Tuesday-Friday 5:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wanda Walker can be reached on 571-272-1151. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
